Contact: +91-8698577381

Web Developer with 2+ years of Experience in developing and maintaining Software applications. Eager to learn and build software solutions that have an impact on the World.

Experience:

- **Full Stack Engineer**
  AIMonk Labs (7 Months)
  - Helping develop and maintain features for AI Annotation platform, 'NeuralMarker'.
  - Working closely with product team on scope of future enhancements and innovations.

- **Associate Systems Engineer**
  Tata Consultancy Services (~2 Years)
  - Handled Software Incidents for an American Banking Client.
  - Worked on Mobile application for their Banking Platform.

Education:

Bachelors in IT	Government College of Engineering, Aurangabad	2018
Diploma in CS	Government Polytechnic, Nagpur	2015

Technical Skills:

JavaScript, React, Vue, NodeJS, Python Flask, MongoDB

Projects Undertaken:

- **Smart Home Robot – Final Year College Project**
  A mobile Home assistant robot that could understand Voice commands, control Electrical Appliances via IoT, detect Emergencies such as Fire and Burglary and be a play mate for the family.
- **Shortcuts App**
  Full-stack (MERN) app that has a collection of several application keyboard shortcuts.
  Backend has been developed using Express and it uses MongoDB for Database.
  Frontend developed using React, Bootstrap and Sass.
- **Tools for Market Analysis**
  Web app that scraps data from NSE website and presents data in a way that can be analysed. Few features of the app include, i) Heat-map of NIFTY indices that can be sorted by OHLC and True Range, ii) Weightage of Stocks in NIFTY indices and iii) Sentiment Analysis algorithm to make Buy or Sell decisions.

Areas of Interest:

Web and Mobile app development, Data Visualisation and 3D Graphics on the Web

Personal Skills:

Hard Working, Willingness to Learn, Optimistic, Good Communication Skills
